

About

Olexa Interactive is a custom website design and development company with a team of highly proficient website designers, innovative graphic designers, website design architects, web application analyst and programmers. We deliver creative, scalable web designs and solutions that are consistent with your requirements and expectations.

Web-based solutions are the core of our services. We offer our clients a full range of professional yet affordable web development and website design solution, aiming at powerful and effective presence at the World Wide Web. Clients refer to us for professional and quality services like, website design, complex web application solutions, flash intros, presentations, brochures, corporate identity et al. Whatever we are working on, combining quality with affordable prices remains our foremost priority.

Olexa is the female form of Alex or Alexander. The organization is named after the first person who attempted to bring together the Eastern and Western worlds.

The logo is a stylized form of the letter 'O'.

Solutions

Olexa Interactive offers a wide spectrum of services to suit all your business needs. We are there to assist you, to facilitate your industry presence & make you win potential business opportunities. We offer cost-effective & requirement oriented services.
